Course Meetings: T.TH 9:30–10:45 AM, Hume 201
Instructor: Dr. Hehui Wu
Office: 322 Hume Hall
Phone: (662) 915-6706
Office Hours: T.TH 3:00PM-4:00 PM, W. 1:30PM-2:30PM or by appointment
E-mail: hhwu@olemiss.edu

Course contents and goals: This course will cover Chapters 5, 6, and 7 of the textbook. Students who successfully complete Math 262 will be able to find antiderivatives of many functions involving polynomials, rational, trigonometric, exponential and logarithmic functions, using a variety of methods. Students will also be able to write and evaluate definite integrals that represent plane area, volume, arc length and surface area.

Homeworks: Homework assignments will be assigned online through www.pearsonmylabandmastering.com and will be due each week. The course ID is wu35698.

TESTS: 1. There will be three tests during the semester. Each test will count 100 points and for a total of 300 points (The lowest one test grade can be replaced by the final grade).
2. The final examination is comprehensive and will count 150 points.
3. The tests are schedules as followed, but it maybe adjusted according to teaching progress.

Test 1: Thursday, February 25.
Test 2: Thursday, March 31.
Test 3: Thursday, April 28.
Final: Thursday, May 12th, 2014 at noon.

FINAL GRADE: The cumulative point total for the course is 600 points – tests: 300, homework/participation: 150, final exam: 150.
The following point scale will be used to determine your final grade:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage Necessary</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93%</td>
</tr>
<tr>
<td>A+</td>
<td>90%</td>
</tr>
<tr>
<td>B+</td>
<td>87%</td>
</tr>
<tr>
<td>B</td>
<td>83%</td>
</tr>
<tr>
<td>B-</td>
<td>80%</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage Necessary</th>
</tr>
</thead>
<tbody>
<tr>
<td>C</td>
<td>77%</td>
</tr>
<tr>
<td>C+</td>
<td>70%</td>
</tr>
<tr>
<td>D</td>
<td>60%</td>
</tr>
<tr>
<td>F</td>
<td>Below 60%</td>
</tr>
</tbody>
</table>

VERY IMPORTANT:
1. If a test is missed for ANY reason, a grade of 0 will be given. There will be absolutely NO make up tests given for ANY reason.
2. Any student who will miss one of the three tests because of an official University function must reschedule and take this test at a time BEFORE the test is scheduled to be given. NO OTHER rescheduling will be allowed.
3. An "I" grade will not be given without the permission of the Department of Mathematics.
4. Students must show all work for each test question and circle at your final answer.
5. Any student having three or more final examinations scheduled for the same day will arrange with the instructor to take the 12 noon examination or the 7:30 p.m. examination on some other mutually satisfactory date.
6. Every student must take the final exam at the time scheduled. The only exceptions are those students affected by # 3 or # 5 above. The final exam for Math 262-Section 12 is at 8AM on Thursday, May 12th.

SPECIAL NOTE: A grade of C or better in Math 262 is required in order to take Math 263.

Tutoring: The Math Department offers free tutoring in the Jackson Center lab — times TBA.
Withdrawal deadline
Withdrawal deadline for the 2016 Spring semester is Friday, March 4. After the Course Withdrawal Deadline, courses dropped will be recorded on University records and the W grade will be recorded if the student is not failing the course at the time of withdrawal; otherwise the grade recorded will be F. After the course withdrawal deadline, a student may drop a course only in cases of extreme and unavoidable emergency as determined by the academic dean; dropping a course after the deadline will not be permitted because of dissatisfaction over an expected grade or because the student is changing his/her major.

ATTENDANCE POLICY
Attendance is especially important, since you will be expected to actively participate in class. Use the ID scanner to check in at the beginning of each meeting. You are responsible for any material, assignments, or announcements that you miss if absent from a class. No special accommodations (e.g. copies of lecture notes, make-up tests, etc.) will be provided. (You are encouraged to come to office hours if you have questions on what you missed.) The only exception to this policy is for participation in a University function, documented in advance of the event. Excessive absences may result in the student being dropped from or failing the course. Cell phones, pagers, and other electronic devices that might cause disruption should be turned off or silenced before class begins.

Academic Misconduct
You are expected to abide by the guidelines for academic honesty given in the M-Book. Sanctions for academic misconduct may include grade reduction, extra work, failure of the course, suspension, expulsion, or a combination of the above. Academic misconduct includes presenting for grading anything which is not your own original work, using unapproved sources for any assignment or test, allowing someone else to copy your work for a graded assignment, or asking for a regrade of a paper that has been altered from its original form. If you study with other students or a tutor, do not look at notes from that study when you write homework to be graded. If you have any doubts about whether something is proper, ask.

Special Needs:
It is University policy to provide, on a flexible and individual basis, reasonable classroom accommodations to students who have verified disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact the instructor to discuss their individual needs for accommodations.
