LEARNING OUTCOMES: Students who successfully complete Math 125 will be able to solve a variety of algebraic equations; manipulate rational expressions; solve polynomial and rational inequalities; identify, evaluate, combine, and compose functions; find the inverse of one-to-one functions; identify the vertex and x-intercepts of quadratic functions; find the equations of the vertical, horizontal, and slant asymptotes of rational functions; solve exponential and logarithmic equations; expand and condense logarithmic expressions using properties of logarithms; work with angles in degree or radian measure; write the ratio definitions of the six trigonometric functions; evaluate trigonometric functions of angles; evaluate inverse trigonometric functions; verify fundamental trigonometric identities; and solve basic trigonometric equations.

HOMEWORK:
- Homework will be assigned for each section of material covered and will count for a total of 100 points.
- The lowest two (2) homework assignment grades will be dropped at the end of the semester.
- Homework assignments will be done on the computer using the MyMathLab software. (See last page of syllabus.)
- Homework assignments may be done as many times as needed before the due date, with only the best score counting toward the student’s grade.
- Homework must be submitted by 11:59 p.m. on the due date for full credit.
- Homework assignments may be completed after the due date for half credit until Sunday, December 6.
- When working an assignment after the due date, only work problems that you have previously gotten wrong OR not attempted. Working a problem you got correct prior to the due date will actually lower your score.
- Any homework assignment that is not submitted will be given a grade of zero (0).

TESTS:
- There will be four (4) major tests during the semester.
- Each test will count 100 points toward the student’s final grade.
- If a test is missed for ANY reason, a grade of zero (0) will be given.
- NO MAKE-UP TESTS WILL BE GIVEN FOR ANY REASON.
- The lowest of the first three test grades will be dropped at the end of the semester. Note that the grade on Test 4 cannot be dropped.
- Any student who must miss a scheduled test because of an official University function must reschedule and take the test at a time BEFORE the exam is scheduled to be given. NO OTHER rescheduling will be allowed.

FINAL EXAM:
- The final exam is comprehensive, consists of 40 multiple-choice questions, and will count 200 points.
- Students will be given a maximum of three (3) hours to complete the final exam.
- Any student who must miss the final exam because of an official University function must reschedule the exam on some other mutually satisfactory date. Any student having three or more final exams scheduled for the same day will arrange with the instructor to take either the 12:00 p.m. OR the 7:30 p.m. exam on some other mutually satisfactory date.
- An “I” grade will not be given without the permission of the Department of Mathematics.
FINAL GRADE: The cumulative total for the course is 600 points. (300 tests, 100 homework, 200 final exam)

ATTENDANCE POLICY: There is an attendance policy in this class.
- In a class that meets three days a week, students are allowed a cumulative total of five (5) absences without penalty. In a class that meets two days a week, students are allowed a cumulative total of three (3) absences.
- Students who accumulate more absences than are allowed will have ten (10) points deducted from their final point total FOR EACH absence above the limit.
- In classes where attendance is taken with ID scanners, each student is responsible for “signing” in each day. As you “sign” in, make sure your scan has been successful. You will be able to “sign” in from ten minutes before class starts until ten minutes after class begins. **Do NOT “sign” in for your friends or have a classmate “sign” in for you.** Attendance (and identity) fraud is a form of academic dishonesty (and it is illegal). Scanning and leaving before class is dismissed will also be considered academic dishonesty. If you need to leave early, consult with me BEFORE class begins. Students engaging in fraud will fail the class and will be reported to the university for further disciplinary action.

TEST INFORMATION: (Dates are tentative and subject to change.)
- Tests will be administered during regular class meetings.
- Each student will be given a maximum time of 55 minutes to complete his or her test.
- Under no circumstances will a late or make-up test be given to any student.

TEST 1: Friday, September 11 – covering sections R.3, R.4/R.5, R.6, 1.1, 1.7, 1.4, 1.6  
TEST 2: Monday, September 28 – covering sections 2.3, 3.1, 3.5, 3.6, 4.1  
TEST 3: Wednesday, October 21 – covering sections 4.3, 4.4, 4.6, 1.9, 5.1, 5.2, 5.3, 5.4  
TEST 4: Friday, November 20 – covering sections 6.1, 6.4, 6.5, 7.1-7.3, 7.4/7.5, 8.1, 8.5

CALCULATORS AND ELECTRONIC DEVICES:
- Your brain is a sufficient calculator in Math 125.
- Electronic calculators, cell phones, and ipods are prohibited on tests. Use of such equipment will be considered cheating.
- All electronic equipment should be turned off during class unless given permission by the instructor. This includes ipods, laptops, ipads, etc. Cell phones should be silenced and put away. The instructor may dismiss you from class if you are observed using any such electronics.

CHEATING: The following statement is the policy of the Department of Mathematics regarding cheating:

Offenses: Cheating on any exam, quiz, homework, work to be completed in class; theft or attempted theft of exam questions; use of prohibited technology (including cell phones); possession of exam questions prior to the time for examination; shall all be offenses subject to appropriate penalties.

Penalties: The penalty for commission of any offense set out above is failure in the course without possibility of academic forgiveness and, subject to the approval of the Chancellor, dismissal or suspension from the university.

WITHDRAWAL DEADLINE FOR FALL 2015 SEMESTER: Monday, October 5

- After the course withdrawal deadline, a student may withdraw from a course only in cases of extreme and unavoidable emergencies as determined by the academic dean.
- Withdrawing from a course after the deadline will not be permitted because of dissatisfaction over an expected grade or because the student has changed his or her major.
- After the course withdrawal deadline, courses dropped will be recorded on University records and the W grade will be recorded if the student is not failing the course at the time of withdrawal; otherwise, the grade recorded will be F.

ACADEMIC NEEDS: It is the responsibility of any student with a disability who requests a reasonable accommodation to contact the Office of Student Disability Services (915-7128). Contact will then be made by that office through the student to the instructor of this class. The instructor will then be happy to work with the student so that a reasonable accommodation of any disability can be made.

SPECIAL DATES: Classes begin: Monday, August 24
Labor Day: Monday, September 7
Course Withdrawal: Monday, October 5
Thanksgiving: Monday – Friday, November 23 – 27
Classes end: Friday, December 4
Final Exams: Monday – Friday, December 7 – 11

TUTORING: The Math Department offers free tutoring Monday, Tuesday, and Wednesday from 2:30 – 6:30 pm in Hume 326.

PEARSON CUSTOMER SUPPORT: Problems involving the MyMathLab software should be directed to their technical support department.
- The Pearson Customer Support Office is open Monday – Friday from 11 am until 7 pm (central time)
- Students may call 1-800-677-6337 to receive assistance with the software.
- Help can be found 24 hours a day online at http://247pearsoned.custhelp.com/.
- It is highly recommended that you do not use Safari as your internet browser for this software.

MyLab / Mastering Course Registration Instructions

Dear Student,
Your instructor chose MyLab / Mastering to help you succeed in this course. With rich media, your eText, and much more, your course provides you with the resources you need to master even the most difficult concepts. Your course is designed to help you get a better grade!

What You Need to Enroll in your Instructor’s Online Course

✓ A Course ID: Lee09841
✓ A valid email address that you check regularly
   This address will be used to confirm your registration and for other communication about the course. Your instructor will also use this email address to communicate with you.

To Register and Sign in to Your Instructor’s Course the First Time

➤ Go to www.pearsonmylabandmastering.com
➤ Click Student under Register.
➤ Enter your Course ID and click Continue.
➤ Verify the course information.
➤ You have a Pearson account if you have used other Pearson online products. Enter your username and password, and click Sign In.
➤ If you don’t have a Pearson account, click Create an account.
➤ Complete your account set up by entering your name, email address, a username and password, and any other required information.
➤ Click Create Account. You now have a Pearson account.
➤ Course access – You have three choices
   ▪ If you have already purchased an access code, click access code, enter the code and click Finish.
   ▪ If using a credit card or PayPal, click the button for the access you want to purchase, provide payment account information and verify your order.
   ▪ Click on Get temporary access and then confirm your choice by clicking Yes. This will give you temporary access to the course for 14 days. At that time, you will have to purchase an access code.
➤ Print the Confirmation & Summary

You now have access to your instructor’s online course.
Click Go To Your Course, and then in the left panel, click the course name to start your work.

To Sign in to Your Course Again Later

➤ Return to www.pearsonmylabandmastering.com
➤ Click Sign In.
➤ Enter your Pearson account username and password and click Sign In.
➤ In the left panel, click the course name to continue your work.
