Career Opportunities

Thursday, March 30, 2023

Event 1 ***Career Opportunities in the Actuarial Sciences***
12:20-12:55 Actuaries use mathematics, statistics, and financial theory to measure, manage and mitigate a variety of risks. They use data to determine the financial costs of potential events and provide guidance based on their findings. The actuarial career is consistently included in lists of top-rated jobs in America. Doug Redman, FSA, MAAA and Nya Williams from Southern Farm Bureau Life Insurance Company will provide a brief introduction to actuarial science and the actuarial career.
Hume 111 **Pizza Lunch Provided!**

Event 2 ***Career Opportunities in the Intel Community***
2:00-3:00 This is a meet & greet with recruiters from the National Security Agency (NSA) and the Office of Naval Intelligence (ONI). Feel free to drop by anytime between 2:00 and 3:00. ***Bring your resume!***
Hume 307 **Snacks Provided!**

Come to one or both! We hope to see you at both!
